

About us

Advanced Mineral Processing, S.L. (AMP) is a Spanish company headquartered in Madrid (Spain). Its excellence is worldwide recognized in Mineral Ores, Industrial Minerals, Coal, Aggregates, Sand & Gravel, Environmental, Recycling and Process Industries.

AMP core business is focused on delivering cost-effective and sustainable industrial projects and solutions for **Materials Processing**. Our knowledgeable and experienced team is committed to deliver excellence from the process development and conceptual engineering phase to the operation one.

AMP counts on its own teams and facilities for the continuous development of innovation projects in different fields of application such as:

- Washing, Attrition & Cleaning.
- Screening, Classification & Separation
- Hydrocycloning, Desliming & Concentration.
- Gravimetric, Flotation & Agglomeration processes.
- Thickening, Flocculation & Filtration.
- Magnetic, Electrostatic & Triboelectric Separation.
- Crushing, Grinding and Micronization.
- Drying, Dewatering & Vacuum Draining.
- Compaction, Briquetting & Granulation.
- Instrumentation, Automation & Process Control.
- Auxiliaries, Pumps, Valves & Field Instrumentation.

Past experience & main references

We stand out the following main references:

- **Mineral Ores and Precious Metals**
MATSA (Spain), RIO TINTO (Spain), DAYTAL (Spain), KAZCHROME (Kazakhstan), OROVALLE (Spain), CLC (Spain).
- **Industrial Minerals**
SIBELCO (Europe), IMERYS (Europe), ETEX GROUP (Worldwide), SUMICOL (Colombia), SAINT GOBAIN (Europe), SAMCA (Spain).
- **Coal**
PMC (Spain), CARBONAR (Spain), ENCASUR (Spain), ENDESA (Spain), CARBOSUR (Chile), COMPAÑIA SCHWARGER (Chile).
- **Aggregates and Sand & Gravel**
TARMAC GROUP (UK), CEMEX (Europe), SALOP GROUP (UK), BLOQUES Y AGREGADOS GONZÁLEZ (Dominican Rep.), FCC (Worldwide), CALCINOR (Spain), BERNEGGER (Austria).
- **Environmental & Recycling**
SYDVATTEN (Sweden), FCC (Spain), GS INIMA (Spain), ECOFOND (Spain), ALUMINIO LA ESTRELLA (Spain), VALORSUL (Portugal), SACYR (Spain).
- **Process Industry**
FERTIBERIA (Spain), EDP (Portugal), ERCROS GROUP (Spain), SALINAS DE NAVARRA (Spain), AZUCARERA ESPAÑOLA (Spain), CITROSOL (Spain).

Core competencies

Our core business is focused on the whole completion of industrial projects and solutions, including the following disciplines:

Research, testing and processes design

Engineering design & projects execution

Innovation both in new processes & equipment

Audits and performance & quality studies

Engineering works and after sales services

Design and manufacturing of specific industrial equipment and complete installations.

Erection of industrial facilities, including commissioning and training services, both at pilot and industrial scale.

Differentiators

AMP capabilities and approach are unique to deliver customer value across their installation's life cycle.

- Knowledge and expertise to deliver tailor made solutions.
- AMP owned laboratory and pilot plant for research, metallurgical testing works, industrial trials both in-house and on site.
- Experienced and trained team to maximize processes efficiency and minimize any environmental impact.
- Collaborative, customized & flexible approach to the development and implementation of projects, continued and followed with after-sales services.
- Alliances and Partner Network to provide with customized solutions and delivery of turnkey projects.
- High experienced and skilled team with dedicated facilities for the development of projects of innovated equipment and processes.
