

# New tool powered by QSAR<sup>LAB</sup>

A comprehensive, easily accessible repository collecting all of the **NAMs under EU Regulations** in one place.

NAMs that were **recently proposed** and can be promising from the regulatory point of view

NAMs that are **currently under validation or adaptation** for regulatory purposes

NAMs that have already **gained regulatory acceptance and legal approval**

Specify your search by **endpoint, biological system, testing method, & more!**

**TRY NOW**
