

SemanticMaterials

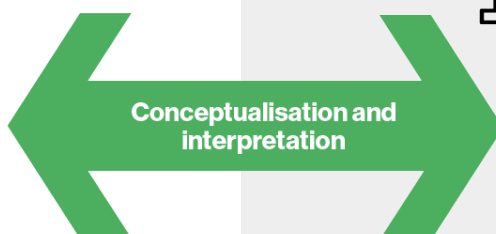

ABOUT US

Semantic Materials enables materials-based industries to manage and integrate data from research to product commercialisation

With the advanced Elementary Multiperspective Materials Ontology (EMMO) and other EMMO-compliant ontologies, we build the strong, science- and analytics-based foundations needed for excellent knowledge management

- ✓ Science-based knowledge management
- ✓ Dedicated materials science ontologies
- ✓ Express complex materials science concepts
- ✓ Integrate data across domains
- ✓ Capture corporate knowledge
