

intelligent technology designed for you

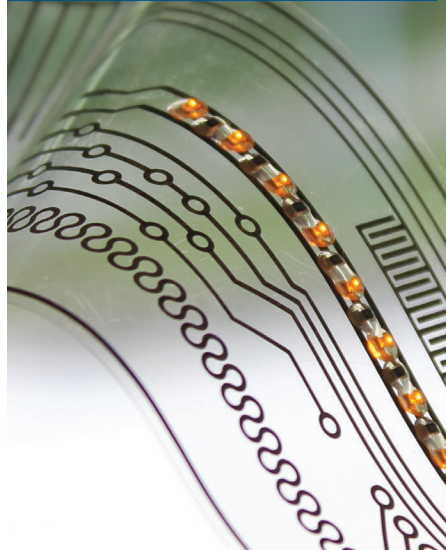

FUNCTIONAL MATERIALS AND SOLUTIONS

- High performance fibres
- Specialized polymeric coatings
- Advanced surface engineering
- Nanoparticles synthesis
- Functional nanocoated substrates
- Ecofriendly processes and competitive solutions

SMART MATERIALS AND SYSTEMS

- Printed circuitry
- Organic and printed devices
- Embedded Electronics
- Printed and embedded sensors
- Integrated Smart Solutions
- Internet of things
- Software Development

DESIGN, MODELLING AND ENGINEERING

- Performance prediction and optimisation
- Thermal Ergonomics
- 3D Fabrication
- Product Design and Development
- Pilot and Pre-Series Production Line
- Rigid/Flexible interface and integration
